SUPPORTING WATERWAYS, ECOLOGY & GEOMORPHOLOGY CAPABILITY STATEMENT

With you all the way.

COMPANY OVERVIEW

WMS Engineering is a specialist engineering consultancy firm providing high quality solutions to hydraulic design, water resources, stormwater and floodplain risk management problems. We are flexible, reliable and passionate about what we do. Our mission is to be the consultant of choice for the engineering solutions we offer and to continue building our portfolio of successful projects and satisfied clients

HOW WE WORK

At WMS, we provide fit for purpose solutions with minimal fuss. We pride ourselves on being:

- Responsive: we can receive and resolve requests rapidly;
- Informed: we seek to understand the broader project context, priorities and requirements;
- Capable and qualified: we provide high quality services you can trust;
- Safety first: we prioritise safety in design to minimise risk;
- Committed: You can rely on us to stay the course until the project is complete.

TECHNICAL SERVICES

WMS Engineering provides high quality services across the eastern seaboard, with offices in Brisbane, Sydney and Melbourne. Our team has the skills and tools to help with your next project. We offer:

- Hydrologic Modelling
- 1D, 2D and 3D Hydraulic Modelling
- Drainage assessments
- Flood Impact Assessments
- Scour assessments (e.g. for bridge design)
- Constraints and feasibility assessments
- Flooding and Stormwater inputs for Geomorphological and Ecological Assessments
